

7th Biennial Scientific Conference on the
Greater Yellowstone Ecosystem

Beyond the Arch

Community and Conservation in
Greater Yellowstone and East Africa

Proceedings

Edited by
Alice Wondrak Biel

Contents

Welcome

Yellowstone National Park Superintendent Suzanne Lewis

An attempt to coalesce with change

Herbert Anungazuk

Can we protect the last of the great overland migrations?

Joel Berger

Uncommon properties: the historical ecology of cooperation in a ranching valley

Alison Bidwell Pearce

Landscapes of tradition, landscapes of resistance

Don Callaway

Issues in carnivore and ungulate conservation in the Yellowstone and Selous ecosystems

Scott Creel and Douglas W. Smith

Cross-border insecurity: national parks and human security in East Africa

Kevin C. Dunn

Approaching the table: transforming conservation–community conflicts into opportunities

Christina Ellis, Izabella Koziell, Brian McQuinn, and Julie Stein

What we've learned about nature from the national park idea

Dan Flores

Community conservation services for Serengeti National Park's surrounding communities

Emmanuel J. Gereta

Ecological mechanisms linking nature reserves to surrounding lands

Andrew J. Hansen and Ruth DeFries

Conservation and contested landscapes: the potential for community-based conservation in East Africa and North America

Jim Igoe

Theodore Roosevelt's quest for wilderness: a comparison of Roosevelt's visits to Yellowstone and Africa

Jeremy Johnston

A. Starker Leopold lecture

Richard Leakey

Involving communities in conservation in Zanzibar: local factors in program outcomes

Arielle Levine

A brief survey of standing: seeking shelter without technicalities in Africa

Kelly Matheson

Livelihood diversification among the Maasai of northern Tanzania: implications and challenges for conservation policy

J. Terrence McCabe

Democratizing natural resource management: experiences from northern Tanzania

Fred Nelson

A century of changing land use and property rights in Tanzania's Selous Game Reserve

Roderick Neumann

Connecting islands of hope in a raging sea

Charles Preston

Excluding people from parks in East African savannas: unintended consequences for wildlife?

Robin Reid

Play, place, and safety in images of Yellowstone and other national parks

Bruce A. Richardson

Keynote address

Steven Sanderson

Understanding ecosystem processes for conservation and management

A.R.E. Sinclair

Ungulate grazing systems compared between GYA and East Africa

Francis Singer, Linda Zeigenfuss, and Robert Stottlemeyer

Early wildlife and parks research in East Africa: parallels with Yellowstone?

Lee M. Talbot

Yellowstone wildlife watching: a survey of visitor attitudes and desires

Alice Wondrak Biel

The snowmachine in the garden: Yellowstone, industry, and the Snowmobile Capital of the World

Michael J. Yochim
